

Ventatrack

TRACTION BELTS FOR DOUBLE FACERS

TECHNICAL DATA

Material	Needled polyester belt with silicone surface
Weight	4800 gsm
Thickness	7,3 mm
Air permeability	0 cfm
Breaking point	35,000 Kg/mt
Temperature range	up to 180°C
Seam	HT Steel Hooks ONDASEAM™

DESIGN

Traction belt with a special silicone covered surface for an excellent traction of the board. Particularly suitable for beltless/sandwich machines or when using a Spirabelt. The surface maintains its properties for the whole belt life. VENTATRACK™ belts are supplied with the special ONDASEAM™ with titanium clipper hooks and covered to avoid any marking problems.

APPLICATIONS

To be used in all bottom positions when there is experience of board slippage (heavy boards, chemically treated papers etc) as it guarantees a perfect traction of the board.

Essential when used in combination with a top Spirabelt
